

## Residential Market - Case Study

“The benefit of using MobileIPCamViewer is comfort and peace of mind”

– Tanya, Front Range Drywall, Inc  
Thornton, CO

### Situation and Solution:

“We use MobileIPCamViewer to monitor our main house. We have 6 cameras inside and outside. With these cameras, we can verify delivery personal and vendors we allow access to our house while we are away. The cameras are a part of our entire automation system. If they are triggered by motion under certain conditions, we get an email alerting us to the situation. Using MobileIPCamViewer software, we can then view the camera to determine the situation”

Cameras: Panasonic models BB-HCM381A and BB-HCM511A  
Phone and Network: Blackberry Curve on the AT&T Network

### Result:

“The benefit of using MobileIPCamViewer is comfort and peace of mind”

MobileIPCamViewer provides live video surveillance on your cell phone. Visit [www.mobileIPCamViewer.com](http://www.mobileIPCamViewer.com) to download a free trail and find out more
