mobiDEOS Launches MobileIPCamViewer

Sunnyvale, CA - mobiDEOS, the leader in providing cell phone based software to view security and surveillance video cameras on the cell phones, launches the release 2.0 of its mobile IP Camera Viewer software application, MobileIPCamViewer, which integrates with the entire line of network cameras from market leader Axis Communications.

Using MobileIPCamViewer, customers can easily enjoy the freedom of watching and controlling security and surveillance video cameras using their cell phones anytime or anywhere. The MobileIPCamViewer is convenient and offers peace of mind at all times as well as a great value and ROI to customers.

“Axis Communications is pleased to have MobileIPCamViewer as a channel partner ,” says Fredrik Nilsson, general manager of Axis Communications. “MobileIPCamViewer is a valuable addition to our cameras and provides users of our network cameras with mobility for video surveillance and remote video monitoring.”

“At mobiDEOS, we are pleased to work with Axis Communications , who is the global leader in the network video market. By integrating our MobileIPCamViewer with Axis network cameras, we believe we can help and provide value for the lot of Axis network camera owners, which is our goal.” comments CEO of mobiDEOS, Inc.

MobileIPCamViewer is already integrated with major cell phone manufacturers such as Motorola, Nokia, BlackBerry(RIM), Sony-Ericsson, Sanyo, LG, Samsung, and HTC. MobileIPCamViewer also supports over 200 different mobile phone models.

MobileIPCamViewer has been in the market for over a year and half, and currently sold through leading cell phone carriers such as Sprint/Nextel, Cingular, Boost Mobile, SouthernLinc, and Orange.
