MobileCamViewer

Author: Simon

mobiDEOS has announced that the MobileCamViewer is now compatible with all Microsoft compliant Windows-based USB or built in webcams. Users can turn their [cell phone](#) and their webcam into a surveillance system for a fraction of the cost. Downloading MobileCamViewer is quick and simple because it takes only three minutes to download onto your cell phone and it's ready to use.

There is no need for a static VP or DDNS services, no need to configure a router or open any ports. The Basic Version of MobileCamViewer for \$4.99 per month makes it possible for customers to have a surveillance system in their homes for an initial cost of about \$25. It can also support over 500 handsets including but not limited to [BlackBerry](#), iPhone, Motorola, Nokia, Palm, LG, Sony-Ericsson, Samsung and more.
