MobiDEOS is a Milestone Solution Partner offering IP video surveillance on cell phones powered by MobileIPCamViewer.

MobiDEOS, a leader in providing mobile access to video surveillance remote video camera monitoring in Silicon Valley, has signed an official Milestone Solution Partner, to provide an integrated solution on its MobileIPCamViewer product. With it, customers can easily enjoy the freedom of watching and controlling all the cameras connected to Milestone XProtect™ video management software via their cell phone anytime, anywhere with just the touch of a button. All this can be set up in less than 3 minutes!

The combination of the XProtect IP video software platform and MobileIPCamViewer brings tremendous convenience, flexibility, improved Return On Investment for customers. Response to security safety incidences can be faster than ever.

"MobileIPCamViewer is an exciting product for providing mobile surveillance devices connected through XProtect. First response police, firemen, ambulance drivers, and security guards can realize immediate benefits," said Henrik Friberg, Co-founder and VP of Strategic Alliances at Milestone Systems.

"It is great to work with Milestone Systems XProtect, as it supports a large, multiple installations and supports the widest choice in hardware from over 40 security manufacturers including more than 100 camera models," said CEO of mobiDEOS, Inc. Sri Palasamudram.

The Milestone open platform enables partners like MobiDEOS to integrate XProtect IP video software with a broad and growing number of systems and devices. Such interoperability provides customers with added value for scalable future-proof solutions, allowing them to stay on top of the latest innovations in the marketplace.

MobileIPCamViewer is already integrated with major cell phone manufacturers such as Motorola, Nokia, BlackBerry (RIM), Sony-Sanyo, LG, Samsung, and HTC, with support for over 300 different models.
